Questions before you spend on AI

Twenty questions about how the work happens today. No signup. This is not an audit.

1. Which task eats the most time each week?
2. Who does that task today?
3. How many hours a week does it take?
4. Where do the files or messages live now?
5. What does a finished version look like?
6. What must a person still check?
7. What must never be sent to a customer without a person?
8. Which tool do you already pay for that could hold the result?
9. Who can turn the new step off?
10. What happens when the assistant is unsure?
11. Is any of this information about a patient?
12. If yes, does the tool maker sign a BAA (a patient-privacy contract)?
13. Who owns the login?
14. Can you export your data if you stop?
15. What would "better" look like in one month?
16. What would make you stop the project?
17. Who on your team will use this every day?
18. Have you written down the words you do not want used?
19. Is this a task you already do, or a new one?
20. Do you want a written plan before anyone builds it?
